

Matteo Stoppa

From a PhD in wearable technologies for astronauts, to fund new companies, managing R&D teams, marketing & communication and business relations with high-tech companies. A track record of three projects presented at the CES of Las Vegas, one exhibits at MoMA of New York, two start-up exits and some awards over the past years. I have proven success in **R&D team/program management, business development, ESG strategies** and **engineering** skills with a practical standpoint. I always seek to leverage them in new challenges.
